

**Project**

TRIUMPH (Team-based care to Reduce resistance against Insulin initiation Using a new care Model to engage T2D Patients to achieve optimal Health outcomes)

**Objective**

The TRIUMPH RLO project, a collaboration between UM and SingHealth DUKE-NUS, Singapore, aims to develop a set of three related Reusable eLearning Objects (RLOs) that educate patients in Singapore about insulin and type 2 diabetes using a series of short, interactive modules.
